7 Water Rules:

- 1. Use reverse osmosis water, artesian well or spring water
- 2. Drink half your body weight in ounces per day
- 3. Start off the day with one full glass of water
- 4. Never drink water with meals (it dilutes stomach acid and blocks good digestion)
- 5. Stop drinking water 30 minutes prior to a meal
- 6. Begin drinking water after 2 hours from a meal
- 7. Reduce significantly the use of bottled water
