

# UC Neuro Boot Camp – The exam with clinical pearls & protocols

## What the participant should expect to gain:

1. Learn the “Wow Factor” exam; a clinically high yield exam centered around your upper cervical work. It will as well impress patients and position you as the expert. Develop a systematic exam flow with tools, tips and templates that that make implementation seamless.
2. Show patients how upper cervical care has had a positive impact on their brain & overall health through pre-post re-examination findings.
3. Give depth and richness in understanding of the cranio-cervical junction and its related neurophysiology. Communicate effectively with other professionals
4. Understand brain development and its application to pediatric care. Be the first doctor to explain to parents why their child has ADHD, LD, ASD, dyslexia, etc. and what can be done to help.
5. Recognize early signs of dementia and Parkinson’s disease that can be spotted in just a few minutes.
6. Learn the three most common signs of brain inflammation and what to do about it.
7. Gain an in-depth practical understanding of the autonomic nervous system and its key role in upper cervical success.
8. The new frontier in health care today is all about the brain. Although the course is focused on UC Neuro, you will walk away with a richer understanding on how the brain develops, how it works, how to assess brain function and how your care has a positive impact on the brain that you can demonstrate.
9. Clinical pearls & protocols; easy to implement exercises, lifestyle and metabolic management that supports upper cervical care.
10. Enrich your upper cervical expertise with an in-depth understanding of UC Neuro with easy-to-implement practical applications. Invest in yourself.
